

Jack Blackburn
Kyle Paris
Ben Burkhalter

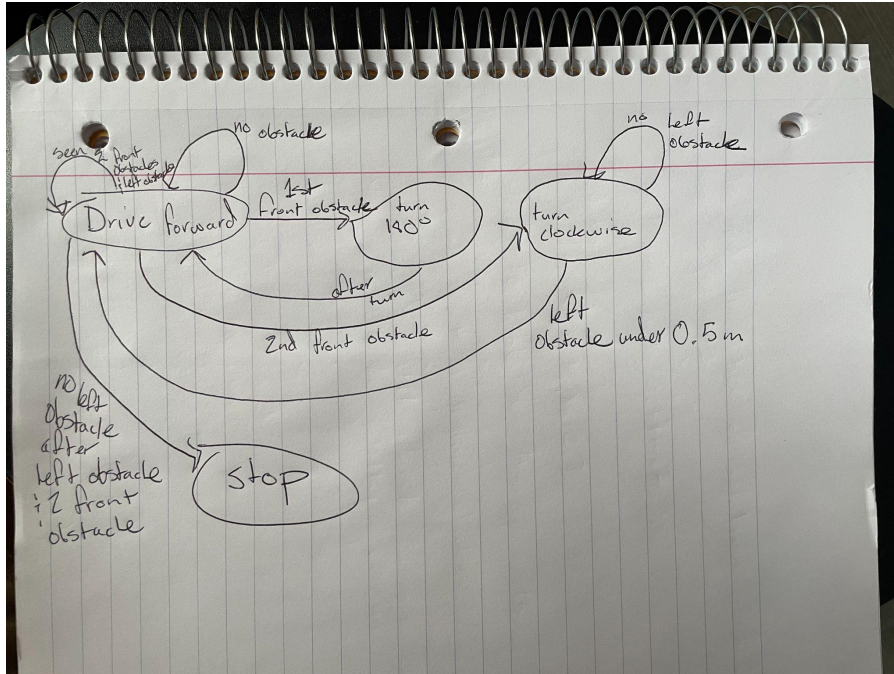

Boulder Dynamics

We all did this lab solo due to us signing up our team on the wrong sheet but we'll be correct moving forward

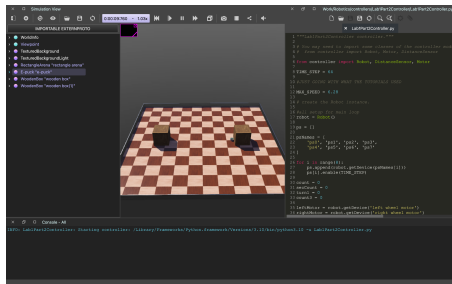

Screenshots:

State machine:

Screenshot of my world:

Completion of task:

Yes I was able to get the robot to do the required task.

Python Experience:

I have experience with python writing scripts, doing data analysis and writing servers. I've been working with it for a couple of years now.

Time Spent on part 2:

It took me about two hours of writing out my logic on paper and then writing the code and testing to get the behavior correct.
